New Source Review newspaper advertisements for construction permit applications, May 3, 2007. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: May 1, May 2, or May 3, 2007. Public notices are generally published every two weeks. The previous publication of public notices was April 19, 2007.

## **PUBLIC NOTICE**

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9<sup>th</sup> Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is <u>Masterfoods USA</u>, <u>A Division of Mars, Ind.</u> with a mailing address of <u>3500 Peerless Road N.W.</u>, <u>Cleveland, TN 37312</u>. They seek to obtain air contaminant permits for modification of and addition to a <u>Candy Manufacturing Facility</u> on <u>3500 Peerless Road N.W.</u>, <u>Cleveland, TN 37312</u>, as follows:

- (1) Modification of an existing <u>Fuel Burning Installation</u> (Division identification number: <u>06-0160-02/60789</u>). This existing operation consists of one (1) 12.6 MMBtu boiler, one (1) 37.7 MMBtu boiler and one (1) 60.6 MMBtu boiler. The requested modification is to increase operating hours from 8400 hours to 8760 hours per year. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants emitted by this source would increase.
- (2) <u>Peanut Roasting Line</u> (Division identification number: <u>06-0160-34/60795</u>). This proposed operation would consist of conveyor, screener, dryer, roaster, cooling unit, and associated equipment to prepare peanuts for coating process. Natural gas would be used as fuel. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Robert Benjamin is the assigned Division person.

For the Bradley County "Cleveland Daily Banner" – published once on or before Thursday, May 3, 2007

Air Pollution Control may0307-web.doc 1

The applicant is <u>Chase Funeral Home, Inc.</u> with a mailing address of <u>21190 East Main Street, Huntingdon, TN 38344</u>. They seek to obtain an air contaminant permit (Division identification number: <u>09-0095-01/60840</u>) for construction of a <u>Natural Gas Incinerator</u> at the same address. This proposed operation would consist of a cremator and associated equipment used to incinerate human remains. Natural gas would be used for fuel. An afterburner would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. E. King is the assigned Division person.

For the Carroll County "News-Leader" – published once on or before Thursday, May 3, 2007.

The applicant is <u>Twin City Fan Companies</u>, <u>Ltd</u> with a mailing address of <u>101 Sunrise Ridge Road South</u>, <u>Brookings</u>, <u>SD 57006</u>. They seek to obtain an air contaminant permit (Division identification number: <u>28-0098-01/60858</u>) for construction of a <u>Surface Coating Operation</u> at <u>202 Commerce Way</u>, <u>Pulaski</u>, <u>TN 38478</u>. This proposed operation would consist of a spray booth and associated equipment used for coating fans and blowers. Exhaust filters would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. K. McLain is the assigned Division person.

For the Giles County "Pulaski Citizen" – published once on or before Thursday, May 3, 2007.

The applicant is <u>E85 Inc.</u> with a mailing address of <u>P.O. Box 560, Kingston, WA 98346</u>. They seek to obtain an air contaminant permit (Division identification number (57-0299-01/60751) for production of fuel grade ethanol from corn via the dry milling process at <u>a site which is located near Pinson, TN, between the Illinois Central Railroad and the South Forked Deer River on the northeastern side of Highway 45, approximately 2 miles northwest of the intersection of Ozier Road and Highway 45. The process includes railcar and truck receiving/dump pits; preparation area; fermentation area; distillation/dehydration area; decanter & drying area; DDGS processing area and two natural gas fired boilers for steam supply. Baghouses and fabric filters, wet scrubber, chemical wetting agents, thermal oxidizer and heat exchanger would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. M. Ahmed is the assigned Division person.</u>

For the Madison County "Jackson Sun" – published once on or before Thursday, May 3, 2007.

The applicant is Tennessee Mat Company with a mailing address of 199 Threet Industrial Boulevard, Smyrna, TN 37167. They seek to obtain an air contaminant permit (Division identification number: 75-0607-01/60812) for construction of a Surface Coating Operation located on Aviation Parkway, Smyrna, TN 37167. This proposed operation would consist of conveyors, adhesive sprayers, injection molding machines, rubber grinders, manual applicators, and associated equipment used to assemble industrial mats. Rubber and vinyl products to be used in the mats would not be manufactured at this facility. A baghouse, cyclone, and exhaust filters would be used for pollution control. Tennessee Mat Company has applied to the Tennessee Air Pollution Control Division (TAPCD) for a federally enforceable state operating permit to opt out of being subject to the provisions of paragraph 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations (also frequently referred to as Title V regulations). Tennessee Mat Company has agreed to be bound by a permit that limits their potential to emit for volatile organic compounds (VOCs) and hazardous air pollutants (HAPs) such that they are below the applicability thresholds of 100 tons per year for VOCs, 10 tons per year for a single HAP, and 25 tons per year for total HAPs. Tennessee Mat Company has also agreed to use record keeping to prove that they are abiding by more restrictive emission limits. There would be physical construction. Regulated air contaminants would be emitted by this source. Ms. E. Peeler is the assigned Division person.

For the Rutherford County "Daily News Journal" – published once on or before Thursday, May 3, 2007.

The applicant is <u>Hoeganaes Corporation</u> with a mailing address of <u>1315 Airport Road, Gallatin, TN 37066</u>. They seek to obtain air contaminant permits for modification of the following sources at the same address as follows:

- (1) <u>Rotary Kiln Dryer</u> (Division identification number: <u>83-0129-02/60861</u>). This existing operation consists of a rotary kiln dryer, and associated equipment used to dry powdered steel. A cyclone and baghouse are used for pollution control. The requested modification is to remove the material input rate limitation. There would be no physical construction. Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.
- (2) <u>North Process Line</u> (Division identification number: <u>83-0129-03/60862</u>). This existing operation consists of equipment used for screening, sizing, and storage of powdered steel product. A baghouse is used for pollution control. The requested modification is to remove the material input rate limitation. There would be no physical construction. Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.
- (3) <u>Blending Operation</u> (Division identification number: <u>83-0129-12/60862</u>). This existing operation consists of a three blenders, dry additive storage tanks, conveyor, receiver additive stations, and associated equipment used to blend powdered steel products. A baghouse is used for pollution control. The requested modification is to remove the material input rate limitation. There would be no physical construction. Regulated air contaminants emitted by this source would stay the same. Mr. M. Reynolds is the assigned Division person.

For the Sumner County "News-Examiner" – published once on or before Thursday, May 3, 2007.

The applicant is <u>APAC Atlantic</u>, <u>Inc.</u> (<u>Harrison Divison</u>) with a mailing address of <u>1301 Spring Hill Road</u>, <u>Knoxville</u>, <u>TN 37914</u>. They seek to obtain an air contaminant permit (Division identification number <u>89-00030-03/60853</u>) for construction of a <u>Liquid Asphalt Cement Storage Tank</u> located at <u>1953 Beersheba Highway</u>, <u>McMinnville</u>, <u>TN 37110</u>. This operation consists of a liquid asphalt cement storage tank with a capacity of 35,000 gallons. Because of the amount and type of emissions, the use of air pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. W. Medley is the assigned Division person.

For the Warren County "Southern Standard" – published once on or before Thursday, May 3, 2007.
